

## Class B: Photo with a model

### 1. Tommi Pasanen FIN

A good idea and a well-planned and executed photo. A brave model, a tightrope walker whose toes are also entwined in the rope. The position of the model's hands is great, as is the wonderfully flowing hair.

## 2. Andreas Ljung SWE

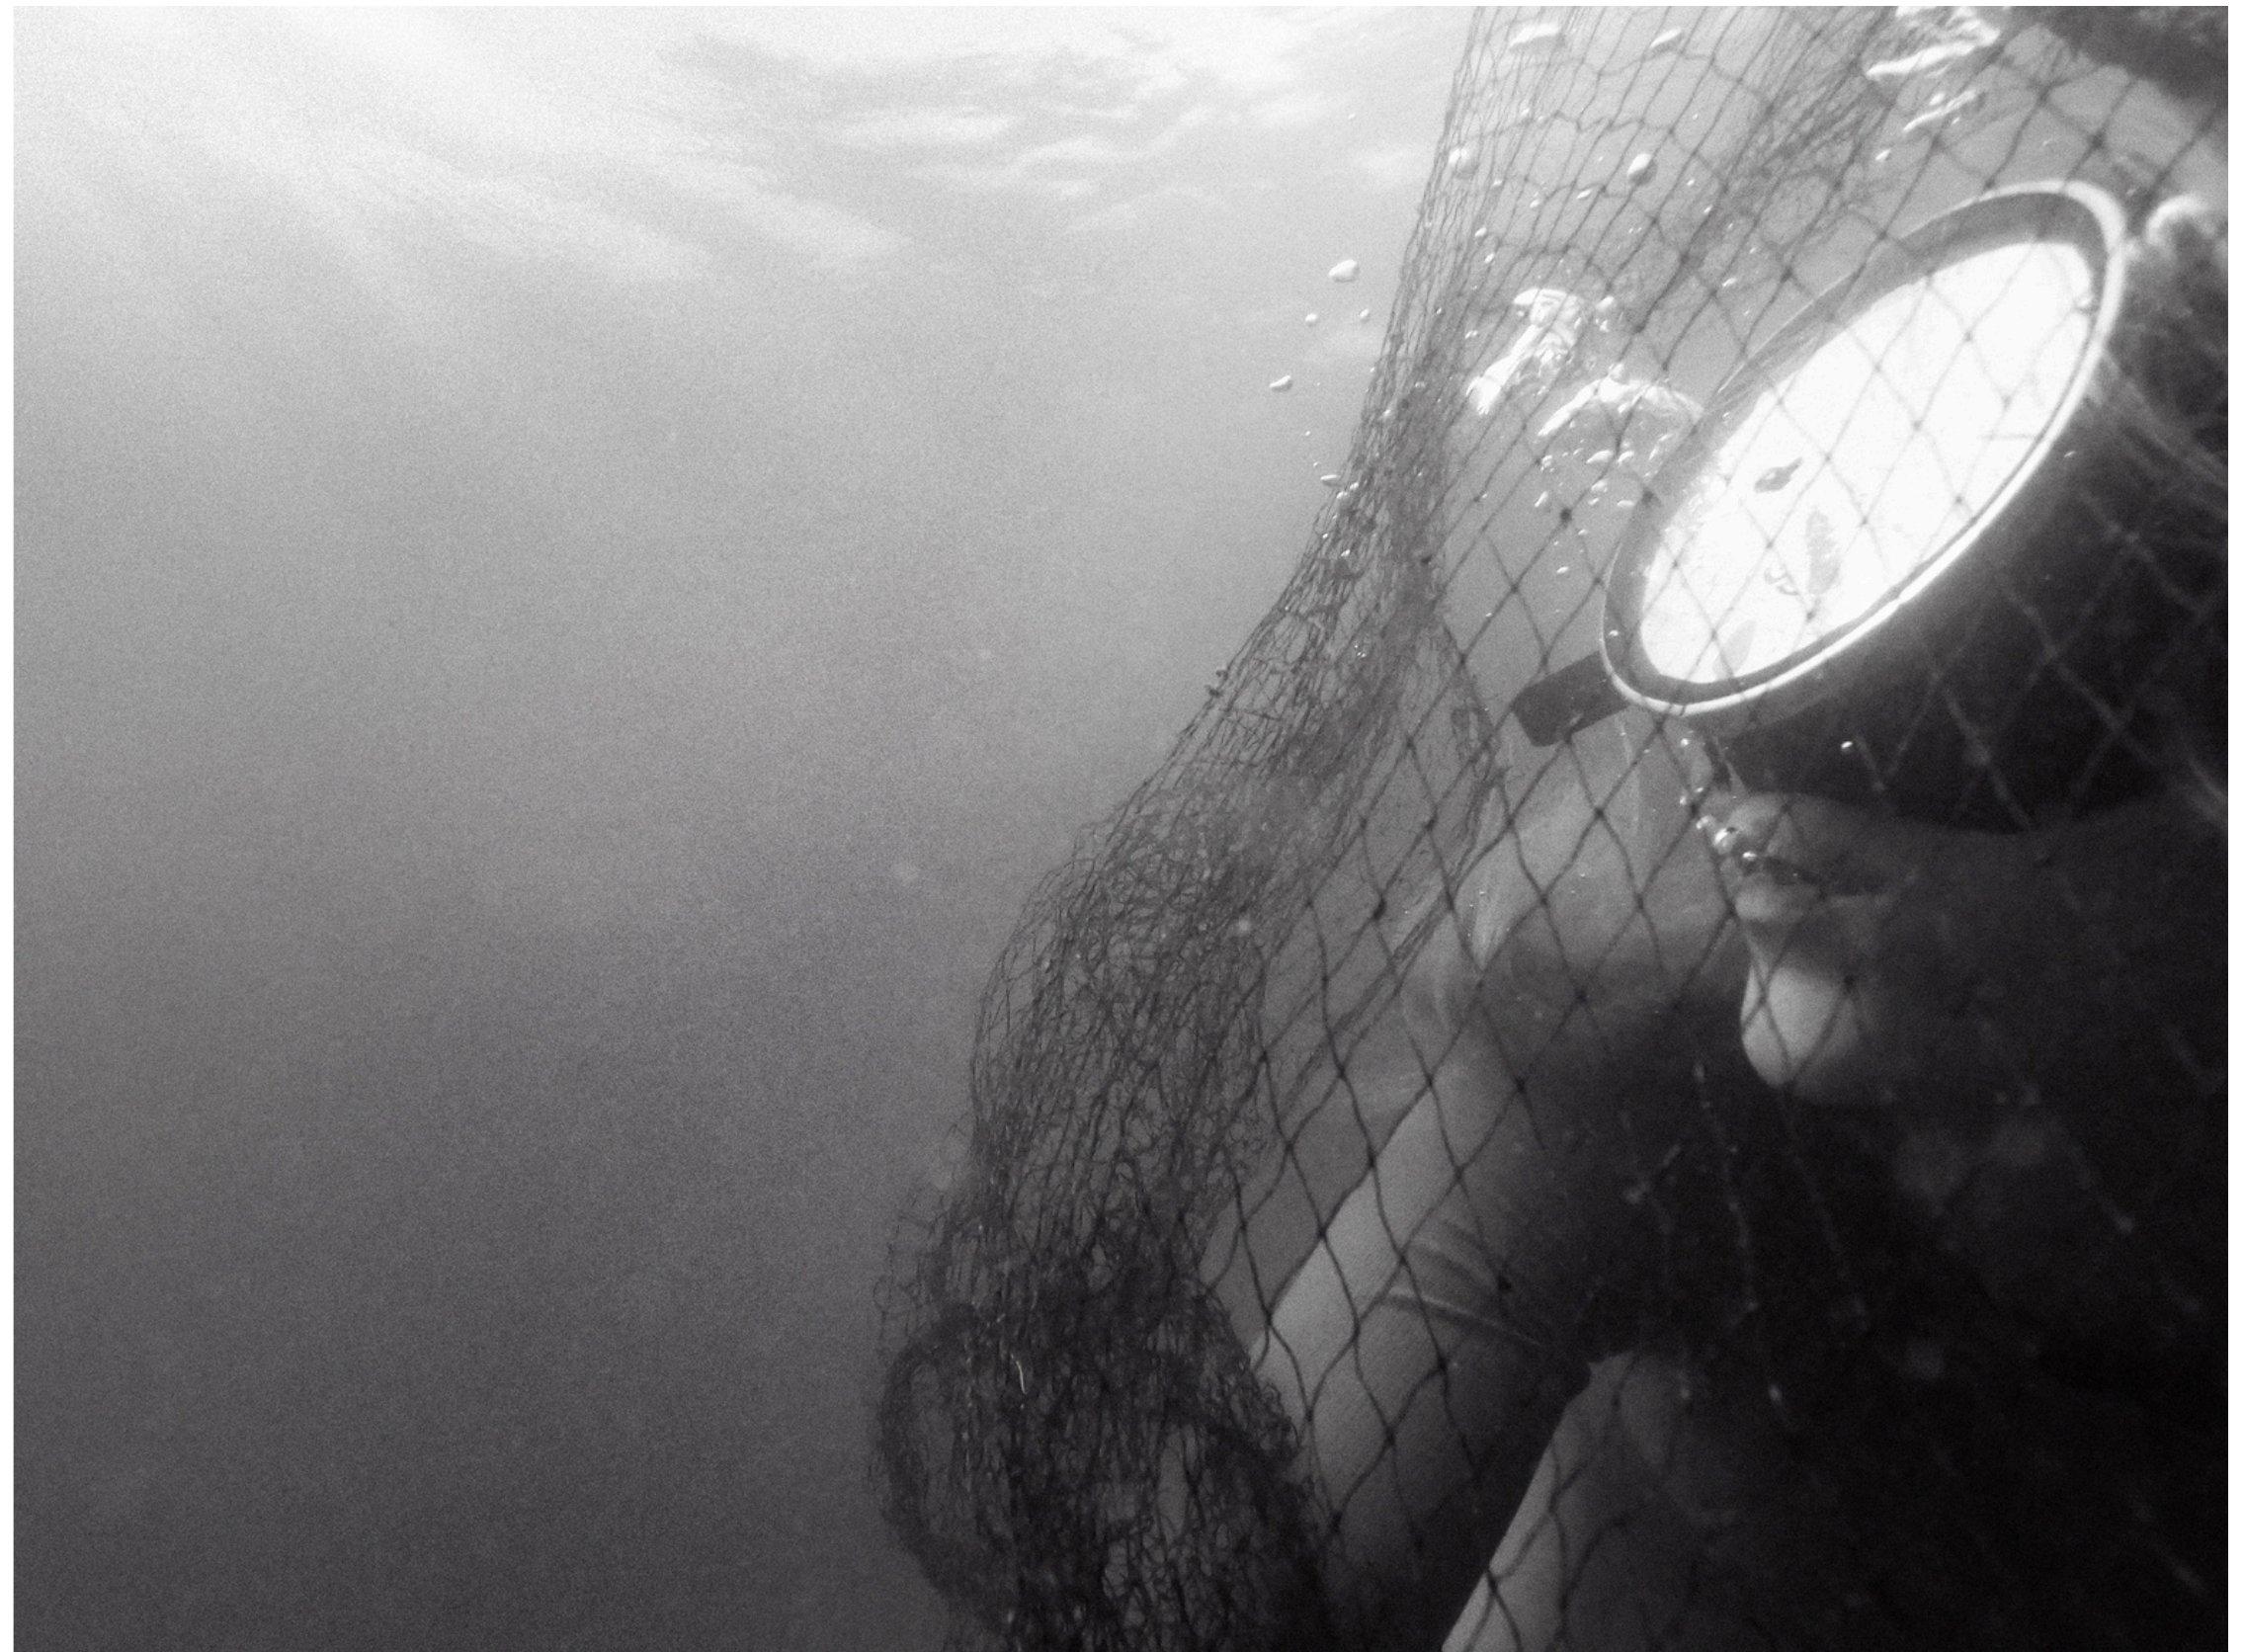

The photo has the ominous atmosphere of the movie Jaws. Anglerfish observes the unsuspecting divers: the fish is staring at the divers and not the other way around. Nice contrast between red and green. There is depth in the picture and the divers are far in a good way.

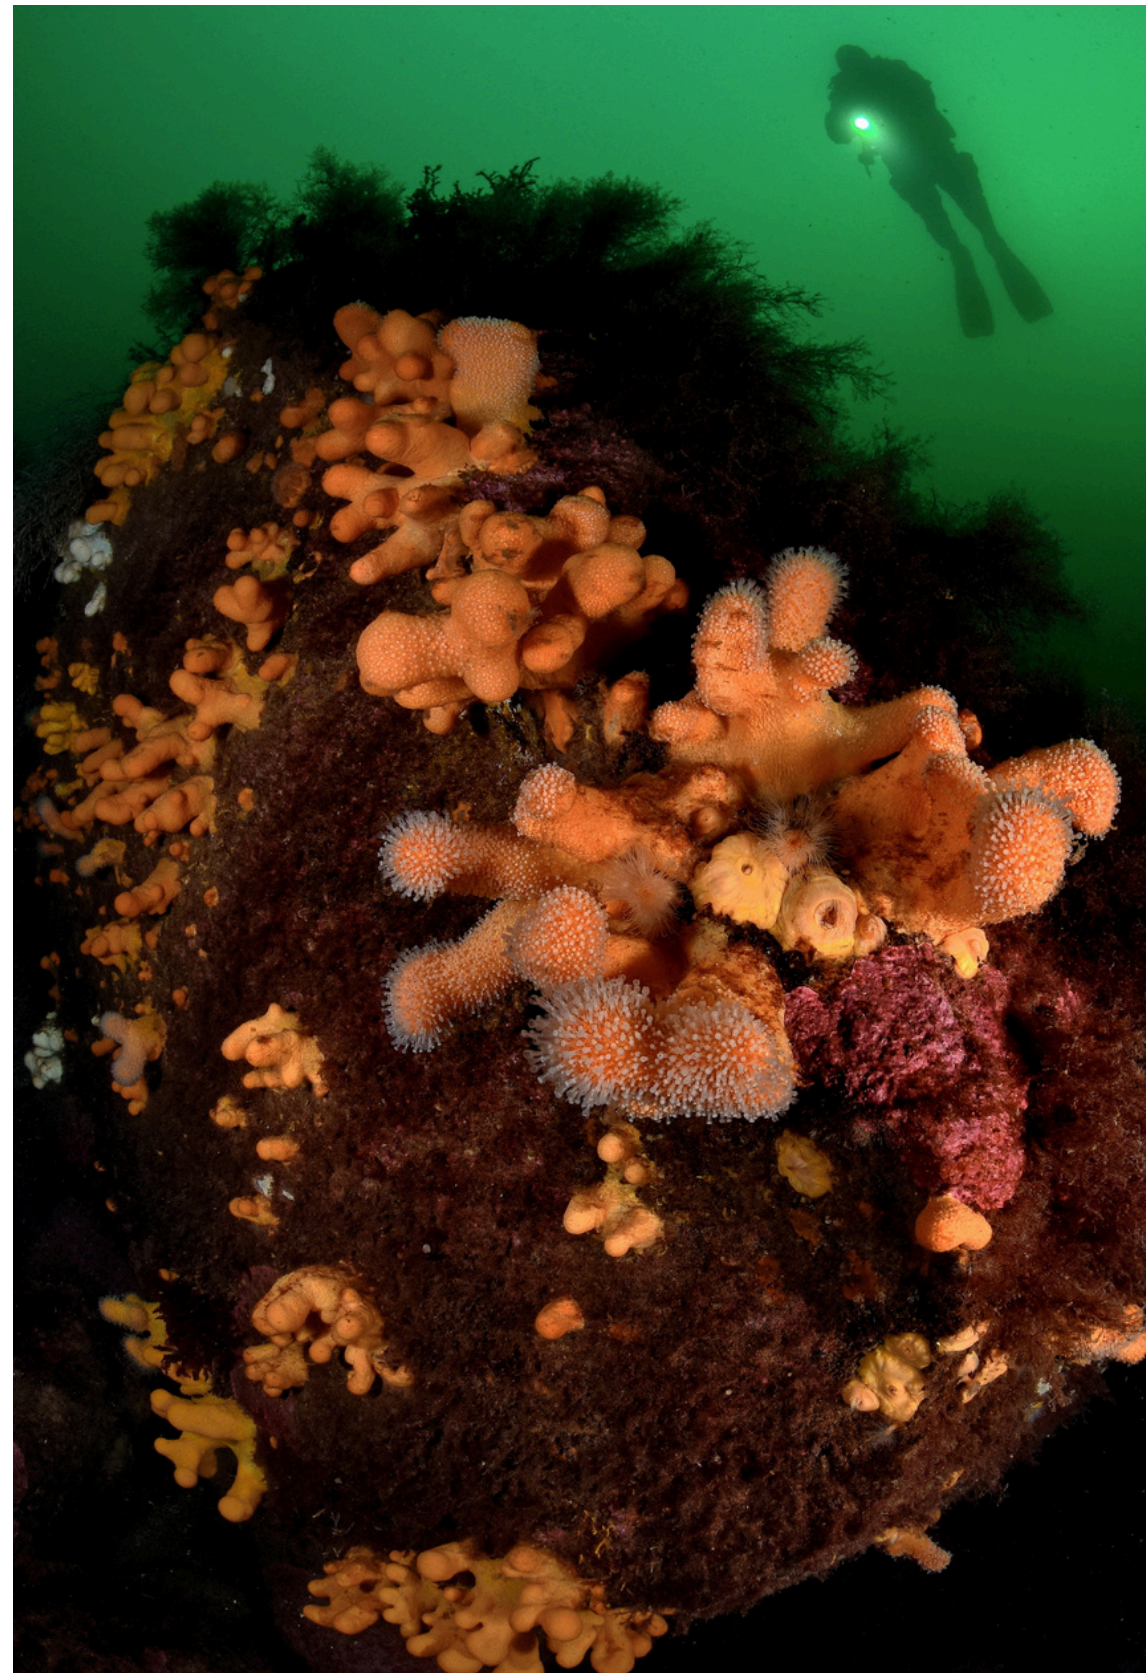

### 3. Päivi Luoma FIN

Strong retro atmosphere, a wonderful Cousteau-inspired mask. A photo with an idea: James Bond movie comes to mind. What has happened? Has the girl been caught in the net? She is calm, but not completely. Is she looking at a threat or her savior? Is there enough air? The story is left to think about.
