

Class E: Theme wreck

1. Johan Björklund

The power of black and white. Massive bow, massive anchors. The size of the wreck is clearly visible in relation to the diver. Good shooting direction, symmetrical view of the bow, beautiful light. The model controls the bubbles well.

2. Petri Niemelä

Impressive propeller. The model is far enough away that the propeller looks bigger. In addition, lovely orange fish.

3. Nils Aukan

Nice bio wreck, dead man's fingers sticking out of the wreck. The diver is in a good position, well placed in the picture.
